## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-12 and 27-29 are rejected under 35 U.S.C. 102(e) as being anticipated by Anderson et al. (US 7,181,821)

Regarding claim 1, Anderson et al. disclose a method of marking a location of a tubular joint comprising tubular ends (601, 602) joined together (col. 22, lines 11-41), the method comprising the steps of:

creating a cavity (603) into an end surface of one of the tubular ends that are to be joined together (figures 27-28, col. 22, lines 44-45);

inserting a marker (604) into said cavity (figures 27-28, lines 46-48); and

subsequently joining the tubular ends (figures 27-28, col. 22, lines 48-53).

Regarding claims 2-4, Anderson et al. disclose the tubular ends are joined by welding, by forge welding, or by a screw thread connector (col. 22, lines 15-18).

Regarding claims 5, 27-29, Anderson et al. disclose the tubular having substantially disk shaped end surfaces that are pressed against each other when the tubular ends are joined (col. 22, lines 54-59).

Regarding claim 6, Anderson et al. disclose the marker comprises an electronic tag, magnetic or radioactive material (col. 22, lines 46-47).

Regarding claim 7, Anderson et al. disclose the cavity being machined at or near the center of said end surface (col. 22, lines 44-45).

Regarding claims 8-12, refer to claims 1-7 and 27-29 above.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Applicant argues that Anderson's reference does not constitute prior art citable under 35 U.S.C. 102(e). Examiner agrees with applicant's argument, thus the rejection as stated above based on Anderson would be under 35 U.S.C. 102(a).

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai T. Nguyen whose telephone number is (571) 272-2961. The examiner can normally be reached on Monday-Friday from 7:30am-5:00pm..
